The X170 Action Camera is the newest all-around helmet camera with everything that you need to capture your extreme sports videos and photos! It offers high quality video (720 x 480 pixel), 5 mega pixel photos, a 1.5″ colour LCD screen for playback, a 5m wireless RF remote control, a 170° wide angle lens, which can be rotated through 300°, and much more!

Privacy Information

The X170 is easily mounted onto your head, goggles, helmet, handlebars or just about anything with the wide range of mounts included in the box. Once mounted, the lens can be rotated through 300º into the perfect position to ensure an upright picture. Now that youre ready to go simply use the wireless remote control to start and stop your videos or to take photos. Alternatively recording can also be started and stopped directly from the camera

Once youve captured your on-board video and photos you can easily play them back or view them on the built-in colour LCD screen to show your friends or for training purposes. Play it onto a TV with the AV cable or download easily to your computer with the USB cable, both of which are included with the X170.

Extremely rugged, fantastic image quality and brilliant value for money! The X170 Action Camera comes highly recommended by the specialists in this field. Great for all types of action sports including skiing, snowboarding, motorsports, trackdays, mountainbiking, and many more…… More >>

   Toni Mora Aldeguer on 9 June 2010:

   Excelente vendedor y excelente producto ! Probé la camara esa misma semana y la imagen es excelente. El único problema es la autonomia de la pilas pero tanto el precio de la camara mas extras y el envio son realmente inigualables !!!! Un vendedor super recomendable Gracias

Jim Dee on 9 June 2010:

Camera is a good value. However, Ace Photo reduced price $20 the very day it arrived and would not adjust my price. Will not shop Ace ever again.
